As soon as the crowd in the Temple of Music had been dispersed the President was removed in the automobile ambulance and taken to the exposition hospital, where an examination was made. The best medical skill was summoned, and within a brief period a number of Buffalo's best-known practitioners were at the patient's side.

The President retained the full exercise of his faculties until placed on the operating table and subjected to an anaesthetic. Upon the first examination it was ascertained that one bullet had taken effect in the right breast just below the nipple causing a comparatively harmless wound, The other took effect in the abdomen about four inches below the left nipple, four inches to the left of the navel and about on a level with it.

Upon arrival at the exposition hospital the second bullet was probed for. The walls of the abdomen were opened but the ball was not located. The incision was hastily closed, and after a hurried consultation it was decided to remove the patient to the home of President Milburn This was done, the automobile ambulance being used for the purpose.

At 8:30 the Associated Press representative was admitted to the Milburn mansion where Secretary Cortelyou gave him the official bulletin prepared by the physicians, and which is printed elsewhere.

Secretary Cortelyou said that a telegraph office would be established at once in the Milburn residence and bulletins giving the public the fullest information possible would be issued at short intervals.

At the Milburn house were Secretary of Agriculture Wilson, President Milburn, Di rector General Buchanan, of the Pan-American exposition, Dr. Rixey and Secretary Cortelyou. Two stenographers with their typewriters were placed in the parlor, which was quickly transformed into a bustling room.
